WORK EXPERIENCE:

## 12TH GRADE

(sports, clubs, membership in programs, honor roll, awards/recognitions, volunteer work with community/church, work experience, or anything above and beyond school)

SCHOOL ACTIVITIES:

SCHOOL AWARDS:

COMMUNITY ACTIVITIES:

WORK EXPERIENCE:

True Story: Colleges are judging you — deciding if you would make a good fit for their school and if you have what it takes to be successful based upon your performance in high school. This is determined not just by your academic record, but also by your abilities and interests outside of class. Colleges want students who have gone beyond themselves to volunteer and help others. Also, you should demonstrate real commitment to particular activities over time (not just randomly joining a bunch of clubs). Showing that you are responsible enough to balance academics with extracurricular activities (without burning out), is a true testament to what kind of college student you could be.
